

Explain it some more • *Daniel Payne* is having some difficulty getting into his math homework. Just a little bit more help will do the trick.

I can't do this! • *Justin Pulley* throws in the towel in Mr. Gavenda's Geometry class.

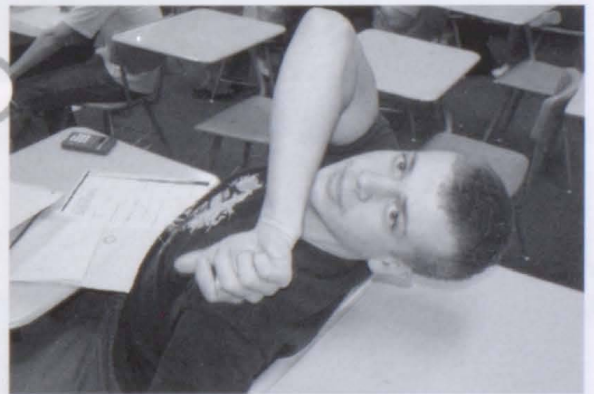

Ahhh, I understand! • *Toni Long* has an epiphany in her Algebra class. After a long battle with the problem, she finally got it.

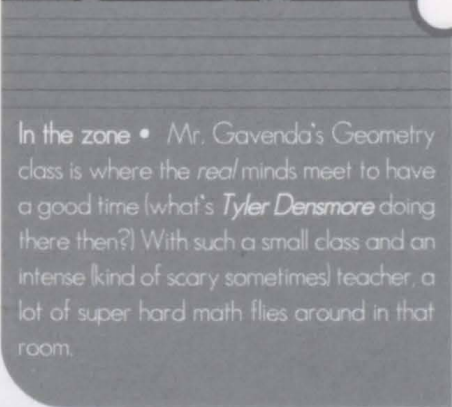

Crazy stuff • *Kristina Robinson, Erin Kelly,* and *Nick Cross* scratch thier heads in Mr. Grollimund's class.

That's a good stretch • *Zach Long* works out some writer's cramp from doing a huge problem on his test.

Wow ... lots of fun! • *Liz Brookhouse* tries to get a quick nap in Algebra 1. It's hard to do when there's almost 40 people in the class.

In the zone • Mr. Gavenda's Geometry class is where the *real* minds meet to have a good time (what's *Tyler Densmore* doing there then?) With such a small class and an intense (kind of scary sometimes) teacher, a lot of super hard math flies around in that room.
