

Ashley High School

New Building, New Attitude

As we all arrived back to school, things look different. What we knew before as the classic old building is now something new and improved! It is definitely a new look, but it is a good one. Our building now looks up to date and more advanced. Along with the new look comes a new feeling as you walk through the halls. It's like stepping out of the old and into a new beginning. It's great to be a Bear!
