

## JV GIRLS BASKETBALL

This was an exciting season for the freshmen girls. They competed against teams with just sophomores or even some juniors. They received many compliments on their basketball capabilities. It's not just a team with one leader, they all contribute to winning the games. Becca Mills led in blocks for the year, while Brianna Koppkeberger and Rebecca Kaufmann led in offense. On the other side of the court Courtney Haynes, Grace Zimmerman, and Kayla Beracy played excellent defense. Whenever they were put in the position, each girl was ready to step up their game. Their season was a team effort and it made all the difference.

### Turning the Records Around "Freshmen Style"

In the past four years the most games any JV team has won was four. Last year the girls worked hard but couldn't get a winning game. Coach Meranda Bowers worked throughout the summer with this year's team, they gave 110% on and off the court. It was a fresh team with amazing talent. This is the team that's ready to give Ashley Basketball a whole new meaning. For the first time in a long time, the JV team was competing hard with MPSH and St. Pats. They stuck with two of the best teams on the schedule and came close in a lot of their games. The girls improved the JV record from winning no games, to winning eight games. These girls are going to improve even more throughout their years at Ashley. You can definitely expect to see great games from all of them. This is the team to change the records.
