Memories Throught The Year

Mr. Cordray

Overall, this year has been a good year with a good class; lots of willing teamwork, good and productive meetings... I'm looking forward to next year.

Megan Burk

This year has been an all new experience to me. i've kept up my grades all year and played sports.

Tyler Skaryd

This year has been ok except that Megan got all of the awards. The only great part was the J.V basketball team, which was dominant.

Savannah Burgess

well. over the last year it was fun. i hung out with alot of new people and did a lot of fun things in school. alot of funny things happened, and there were also alot of boring things. basically it was your average school year. my favorite activity was community day and the debates. my least favorite thing was the elections. lunch was crappy, i didnt like the food and the service was horrible. we didnt have enough food. the hallways were hecctic as usual and i wish i could have had a more active school year. i was kinda upset because i didnt get into some classes that i wanted like art but eventually i will take them. well thats my year.
