

6th Grade

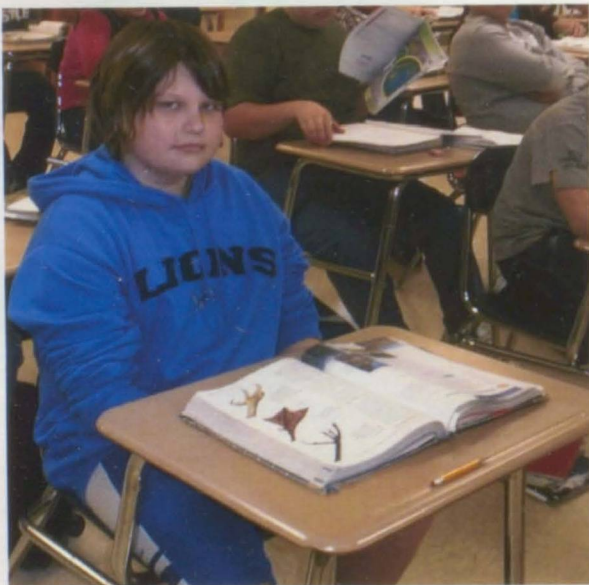

GEOGRAPHY

Tate Kostal and *Matthew Mulholland* look very entertained at the Geographic Bee while *Carter LaFleur* tries not to let his nerves get the best of him. *Jaden Gavenda* shows calm nerves.

WHERE'S THAT?

Eighth grader, *Weston Smith* won the Geographic Bee and *Jaden Gavenda* was runner up, so if you need to know where a place is around the world they're the people to ask!

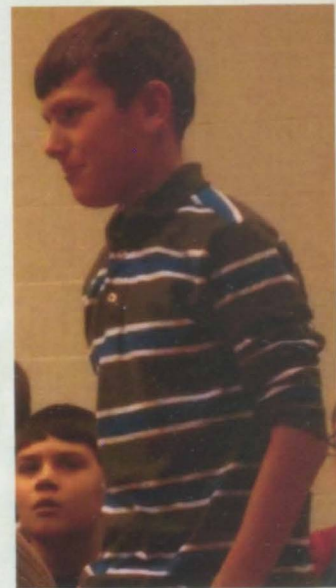

SOMETHING DIFFERENT PLEASE?

Ethan Malek looks very uninterested in his science work!

EWWW GROSS!

Karlie Howe is reading her science book learning about different types of insects. *Aidan Cano* sneaks into the picture instead of reading his book.

AND THE QUESTION IS?

Tate Kostal is busy at the Geographic Bee pinpointing places!
