

Preparing for the Parade

The band holds a rehearsal to get ready for their parade in Mackinaw. They may be small but they produce a great sound.

Caught
Weston Smith plays the piano in his free time. He caught us with the camera so he decided to give us a smile.

Putting it all Together
Ezra Bearden, Anna Fabus, and Devin Slavik all work hard on a part they have. They were putting the melody with the counter melody.

Blending In
Mr. Cervini plays with the band and refuses to have his picture taken. The band was playing without their director and it sounded as if they were playing with someone directing.
