

# Science

**Left:** Justin Efu and Gary Andrews listening to Mrs. Goward's lesson.

**Below Left:** Dillan Beebe and Korbin Lowther check their plants in the greenhouse.

**Below Right:** The sophomores take inventory of the plants they have growing in their hanging baskets.

Grant Malek does his best at flipping bottles for the challenge in Mrs. Goward's room.

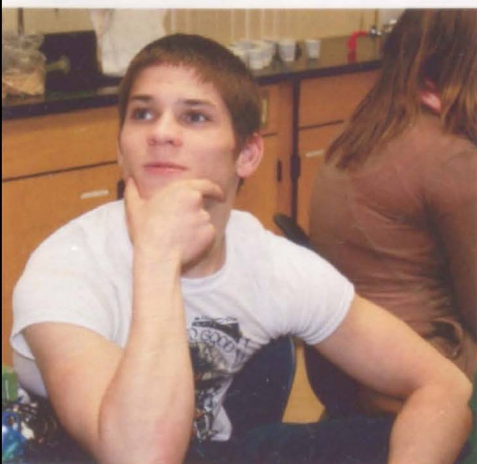

Korbin Bradley prepares to drop his paper creation in the hallway during an experiment for science class.

7th graders Evan Litwiller and Angus Ostrander build cubes using popcicle sticks.

Paige Wenzlick and Kiley Huntoon measure how far a ping ball bounces.

According to Matt Mulholand, science can be mindblowing.

Kirstin Sperling and Alex Powelson work together to sort beads and chart their results.
