

The 2017-2018 school year kicked off on Tuesday, September 5, 2017. Students were welcomed by staff as they headed towards the auxiliary gym. The main gym was still curing after having a new floor installed over summer break. Our school had received a face lift which in turn lifted the spirits of students and staff alike. Students were excited to take on the new school year and make it truly their best year yet. Their goal: to make this year the year that could only be described as **MORE THAN WORDS CAN SAY.**
