

The Great Pumpkin Carving

Every year, Mrs. Smith takes a group of student volunteers to the Ashley Care Center to carve pumpkins and help get the residents in the Halloween spirit.

This year middle school students, Brendon Spitzley, Macy Seifert, and James Witcheil volunteered their Friday afternoon to lend a helping hand.

We Need a Little Christmas

The senior class works together to decorate the school for Christmas in preparation for the North Pole Express' first arrival on November 17th during Mrs. Jason's 1st hour senior seminar.

Gift Baskets Galore

For eighth grade health class, students organize and assemble fruit baskets to give out to members and businesses of the Ashley community. The service learning project is planned and completed by the eighth grade class each school year.

Mentors Help Make it Happen

What is your favorite part about mentoring?

Lukas Andersen
"My favorite part is helping the kids improve in their learning abilities. What I like most about the 4th grade is working their way up to get ready for middle school."

Kennedy Bearden
"My favorite part about mentoring is laughing with the kids. It makes you feel good inside to know you're doing good in this world for them. The thing I like most about working with 7th grade is the fact that they look up to me."

Stephanie Cordray
"My favorite part about mentoring is being around the kids everyday and watching them grow up and learn new things."
